

# UTOPIA WINE LIST 2025

We are happy to welcome you at Utopia Restaurant. The wine list you are holding might seem really long (!) but it has an interesting suggestion for every customer. Don't hesitate to ask our trained staff for suggestions!!

*\*Please take some time to visit our wine cellar and take a look at all the wines of the list before you decide.*

*\* A 10% discount applies to take away wine bottles.*

## *Useful information on the Greek indigenous grapes and growing regions.*

### Zakynthos

The Island that you have visited has a long history in wine making. Zakynthos was one of the first places to bear the indication "Traditional Designation" for Verdea wine.

*Climate:* Warm Mediterranean | Altitude Cooling Effect

*Indigenous Grape Varieties:* 🍷 Goustolidi 🍷 Pavlos 🍷 Robola 🍷 Augoustiatis

### Northern Greece

This side of Greece is known for the ability to produce high quality wines from either international or indigenous varieties. Some of the most prestigious wineries have developed in this area.

*Climate:* Warm Continental | Mountainous Area

*Indigenous Grape Varieties:* 🍷 Assyrtiko 🍷 Malagouzia 🍷 Xinomavro

### Central Greece

The most mountainous areas in Greece combined with very fertile soil composition can produce acidic wines with interesting notes and large productions.

*Climate:* Warm Continental | Altitude Cooling Effect

*Indigenous Grape Varieties:* 🍷 Savvatiano 🍷 Roditis 🍷 Mouchtaro

### Peloponnese

The two main areas that produce wines in Peloponnese are Mantinia PDO and Nemea PDO. Slopes and easterly winds give the grapes the ability to ripe nicely.

*Climate:* Warm Continental | Mountainous Area

*Indigenous Grape Varieties:* 🍷 Moschofilero 🍷 Roditis 🍷 Agiorgitiko 🍷 Mavrodaphne

### Santorini

A world wide case study Santorini carries some of the oldest vineyards in the world. Vines can even grow on the volcanic terroir of the Island. The vines' trunks are pruned in a wreath-like basket shape within which the grapes, sheltered from the sun and the high winds, grow with no water.

*Climate:* Hot Mediterranean | Low annual rainfall | Volcanic Terroir

*Indigenous Grape Varieties:* 🍷 Assyrtiko 🍷 Aidani 🍷 Mavrotragano 🍷 Mandilaria

### Crete & Cyclades

The southwest islands of Greece produce wines with high alcohol percentage due to the early ripe of the grapes. The reds are known for the full body and high tannins. The altitude of the slopes help to produce high quality wines in this area.

*Climate:* Hot Mediterranean | Mountainous Area

*Indigenous Grape Varieties:* 🍷 Moscato 🍷 Vidiano 🍷 Kotsifali 🍷 Liatiko
